Alex Dickerson 840-3462

Maintenance

Bill David 770-8150

Webmaster

John Young 848-9292

Heritage Glen Website www.hg-3.org

If you didn't know, we have a Heritage Glen III website. It is a secure website in which only our members have access. It will include a variety of topics to assist homeowners including a directory, monthly board meeting minutes, bylaws, maintenance forms, want ads, breaking news, etc. We will be making many changes during the year, so make sure you register and see what's happening in our community. **www.hg-3.org**

PLEASE KEEP STORM DRAINS CLEAR

Our storm drains need to be kept clear of debris, plants, and shrubs in order for them to work properly. Please trim back plants around the drains if you have a drain in front of your property.

Trim all plants, shrubs, and trees from growing onto or hanging over into the roads to allow emergency and larger delivery trucks to pass through.

Start gathering those unwanted items that have been sitting around the house that you and your neighbors would love to see gone. Our annual "Dumpster Day" will be here before you know it in May. Just remember: No hazardous waste, No yard waste, No large appliances, No tires or chemicals.

WE NEED YOU!

New board members are always welcome. We meet once a month. For your service and time, annual homeowner dues are waived during your term. Come and support your association and make a difference.

ARCHITECTURAL CONTROL

Homeowners are reminded that activities such as building fences and sheds, large tree removal, roof replacement, and house painting need to be approved by the homeowners architectural board. If you need a form, just ask. Thank you for your compliance to ensure we keep Heritage Glen a beautiful place to live and that we maintain our property values.
